## 1.0 BACKGROUND

Supplementary Planning Documents add further detail to policies contained within the development plan and are used to provide guidance on specific sites or particular issues. SPDs do not form part of the adopted development plan but they are a material planning consideration in decision taking.

The Draft Developer Contributions SPD builds upon existing development plan policies found in the Cheshire East Local Plan Strategy (adopted July 2017) and 'saved' policies within previous Local Plans. The SPD also identifies additional plans and policies that are currently in preparation. The purpose of this SPD is to provide information about the provision of and/or contributions towards infrastructure, facilities and services for the plan area, set out the circumstances where infrastructure provision, including financial contributions, will be sought through planning obligations.

The SPD updates, consolidates and sets out Cheshire East Council's approach to developer contributions in a single Planning Obligations SPD for the Borough. It provides guidance in relation to a range of policies that may require a contribution from development. It is designed to assist prospective developers and other stakeholders by establishing one document that sets out the approach to determining likely contributions in Cheshire East, based on local evidence of need and in response to mitigating the impact of development.
